**THE BREVITY BASKET.**  
Filled with Brief Mention of Many Minor Events of Yesterday.

The inspector and measurer of wood for the Rock creek district inspected 5,707 cords of wood during the last year.

Mr. Samuel Bryan has been elected president of the Chesapeake and Potomac Telephone company, vice Mr. H. D. Cooke.

The inspector of flour examined during the past year 100,303 barrels of family flour, 1,225 barrels of extra, 546 barrels of superfine, and 1,738 bushels of rye.

John Padrick, steward on one of the dredges in the river, was yesterday convicted in the criminal court of stealing \$45 from Robert H. Rickard in August last. Sentence was suspended, exception having been taken that the government had failed to show the money to be legal tender of the United States.

In answer to a complaint from Milton Ford that the brickmakers have excavated the street in front of his house, on D, between Twelfth and Thirtieth streets southeast, and have left it twelve feet above grade, the commissioners have notified him that the only relief is in the grade, which the district is not able to do.

Justice Cox in the equity court yesterday, in the case of the Washington Schuetzen Club company against August Schmidt and Thomas McCann, granted a permanent injunction against the defendants, restraining them from building a fire in a park, erecting a stock, or making changes in the main building, or doing anything tending to injure the property.

F. P. Cox, agent of the Postal Telegraph company, has offered to lease two of the wires on the conduit of Fourteenth street to the fire department for the entire length of the conduit for \$700 per year, or for the same sum they will permit the district to run two of its own wires through the conduit. Sept. H. H. Miles states that he thinks the department can get to the places designated for fire alarm boxes without the use of this conduit.

**THE GREAT CATHOLIC COUNCIL**  
Grand Excursion to Baltimore Sunday, Nov. 9.

Special train will leave the Baltimore and Potomac Railroad station at 8 a. m., arriving in Baltimore in ample time to participate in the grand and imposing escort of the ecclesiastical procession from St. Alphonsus' church and the archbishop's house to the Cathedral.

Catholic societies of the district and adjoining cities will be fully represented. All facilities necessary to accommodate the excursionists will be furnished by the Baltimore and Potomac Railroad company, and special extra trains will be run, required. Special train, returning, will leave Baltimore (Calvert station) at 8 p. m. Excursion tickets will be good on all trains in both directions on Sunday, Nov. 9.

Round-trip tickets, \$1.50; children between 5 and 12 years, 75 cents. Those of our citizens who will visit Baltimore on this occasion would do well to provide themselves with tickets during the week, and thus avoid the crowd at the station on the morning of the excursion. Tickets can be obtained at the offices of the company or from members of the Young Catholic Friends' society.

**Building Permits.**  
Building permits have been issued to Thomas A. Brown, repair brick, 432 M street northwest, \$300; Anna Kemp, repair frame, northeast corner of Twelfth and C streets northeast, \$300; Edith M. Mangum, erect a two-story dwelling and store, Seventh street, between C and Pennsylvania avenue southeast, \$1,500; J. B. G. Custis, erect a three-story and cellar dwelling, East Capitol, between First and Second streets northeast, \$3,000; Thomas Mitchell, erect a frame dwelling, Bladensburg road, \$1,000; H. Paine, repair frame on Livingston road county, \$300; Joseph Bishop, erect a three-story dwelling, Sixteenth, between E and F streets southwest, \$3,300.

For an appetizer nothing is better than cabbage or the tops of turnips, but for a student cough or cold, don't forget, the best thing is a bottle of Dr. Bull's Cough Syrup.

**The Wood Divorce Case.**  
The petition of Mrs. Elizabeth Wood to set aside the decree of divorce granted her husband, Foster P. Wood, on the ground of conspiracy was heard by Justice Cox yesterday in the equity court. The affidavit of Mrs. Wood, testifying to show a combination against Mrs. Wood to prove the alleged adultery and counter-affidavits were read.

Judge Cox said he had a suspicion, on the hearing, that there was some collusion, and if a respectable affidavit was filed sustaining these statements he would set the decree aside. At the close of the argument, however, the chancellor concluded that cause sufficient had not been shown, and declined to reopen the decree.

**CITY ITEMS.**  
The King of Floor Cloths—The new and artistic designs brought out this season in the patent "Linoleum" floor cloth will, no doubt, give this popular article an increased sale. It is the only floor covering combining in the highest degree the qualities essential to comfort, elegance, and economy. Inferior foreign imitations, by various names, are on the market, but the superiority of the American make is beyond controversy. The genuine cloth has the Walton trade mark and word "Linoleum" on the back of every square yard. All carpet dealers keep it.

How shall this short man, who has dismounted from the tall horse to pick up his whip, mount again? It looks impossible, but we leave our friend to work it out. And yet he may succeed, just as we have succeeded in doing what seemed impossible. To sell Ready-made Clothing with the style and character of fine Custom Work seemed impossible, but we do it, and save money for our customers. To spring at one bound into this community, and in thirty days take a leading position in the Clothing Trade, seemed impossible, and we have done that. We propose to do more.

This system entirely obviates the necessity of extracting teeth, does away with artificial teeth, prevents the suffering caused by decay of the teeth and consequent extraction of the roots (producing a change in the expression of the face and mouth), and avoids the pain and excessive soreness attendant on a plate.

By this method roots and badly decayed teeth, which are firm in position, may be restored to direct usefulness and beauty, performing the office of mastication like the natural teeth.
